Changes made to Front-End

1. Added background image to the web page
2. Inserted a table for nutrition facts
3. Aligned buttons for login and registration
4. Added a table for displaying order details during Checkout

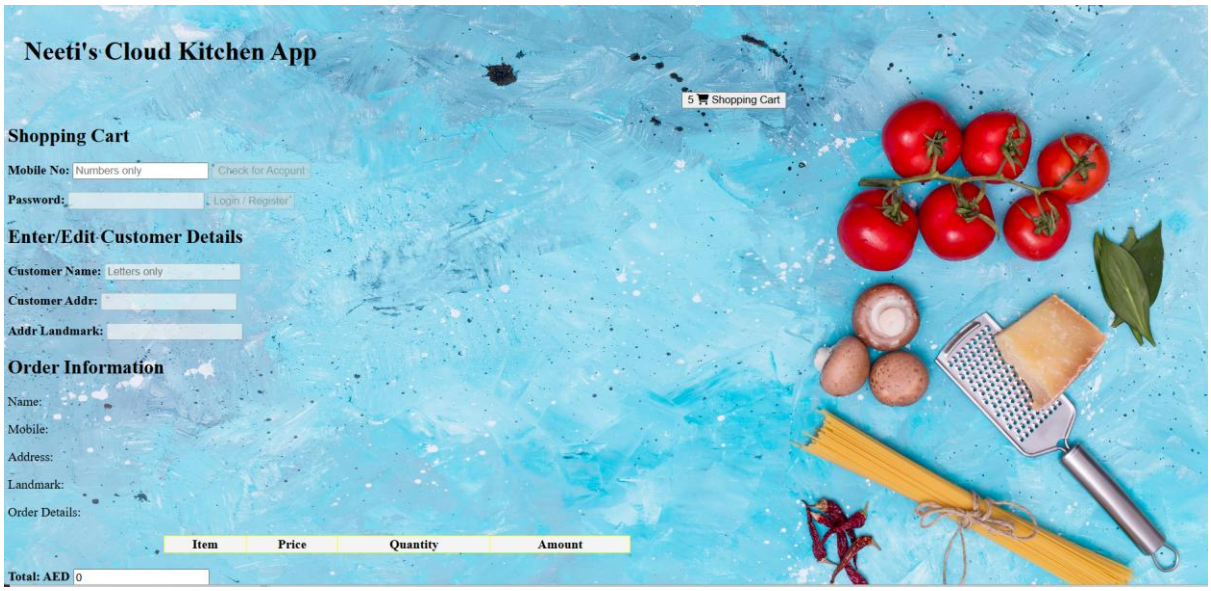
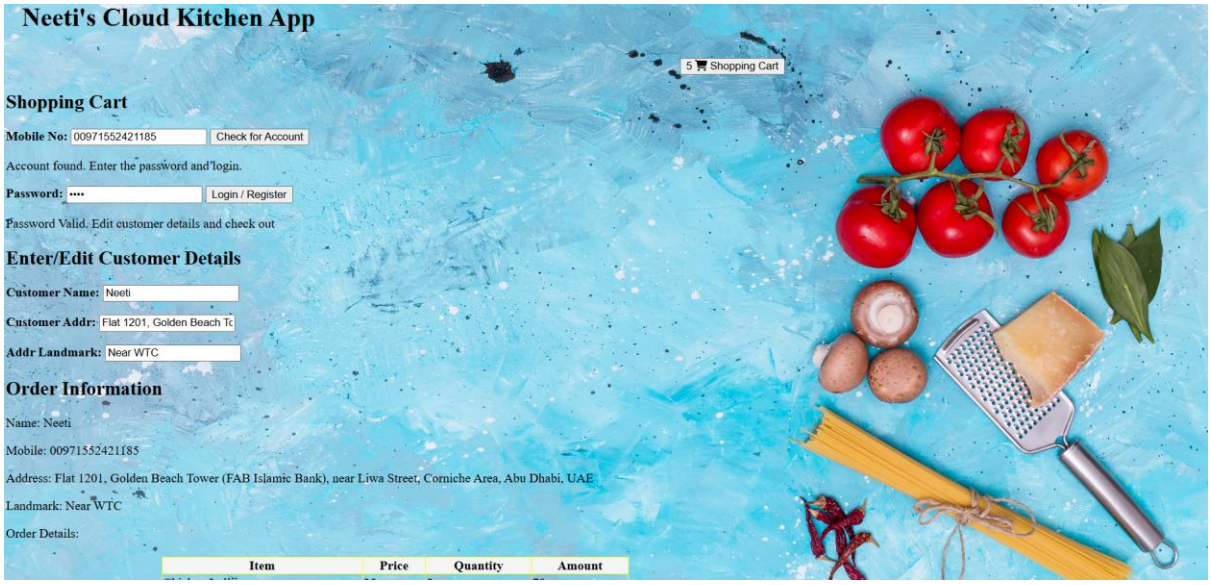
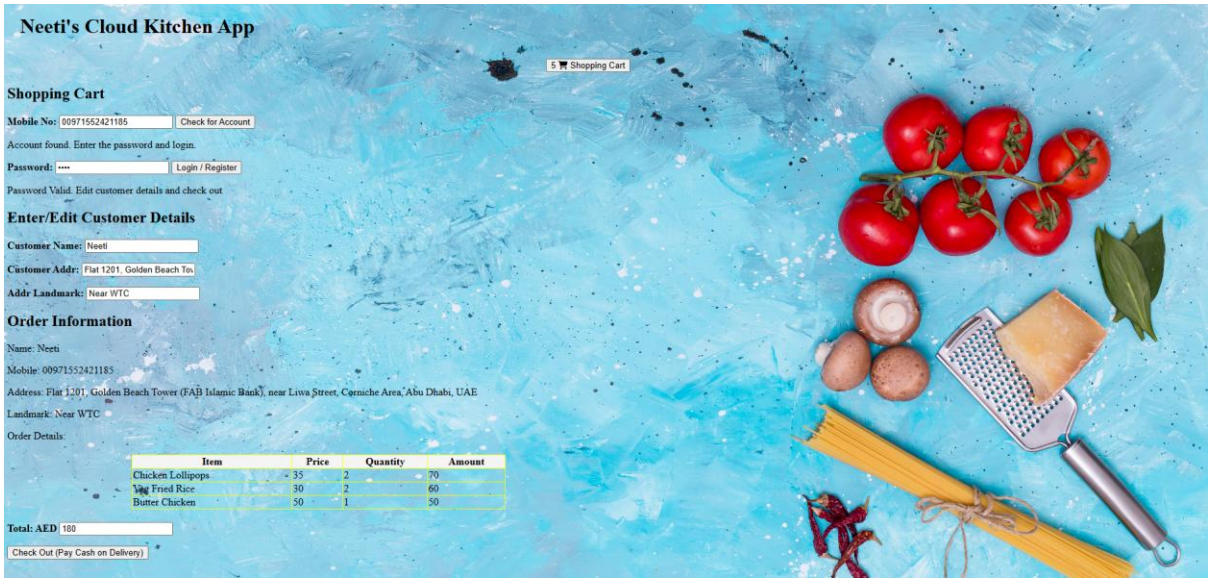
After selection of the items, user clicks on shopping cart and sees a UI to add their customer details.



User enters the mobile number and clicks on to "Check for Account" – button.

If the account is available, user is prompted to enter the password. Upon successful login, the customer details are displayed. User can edit the details if required.

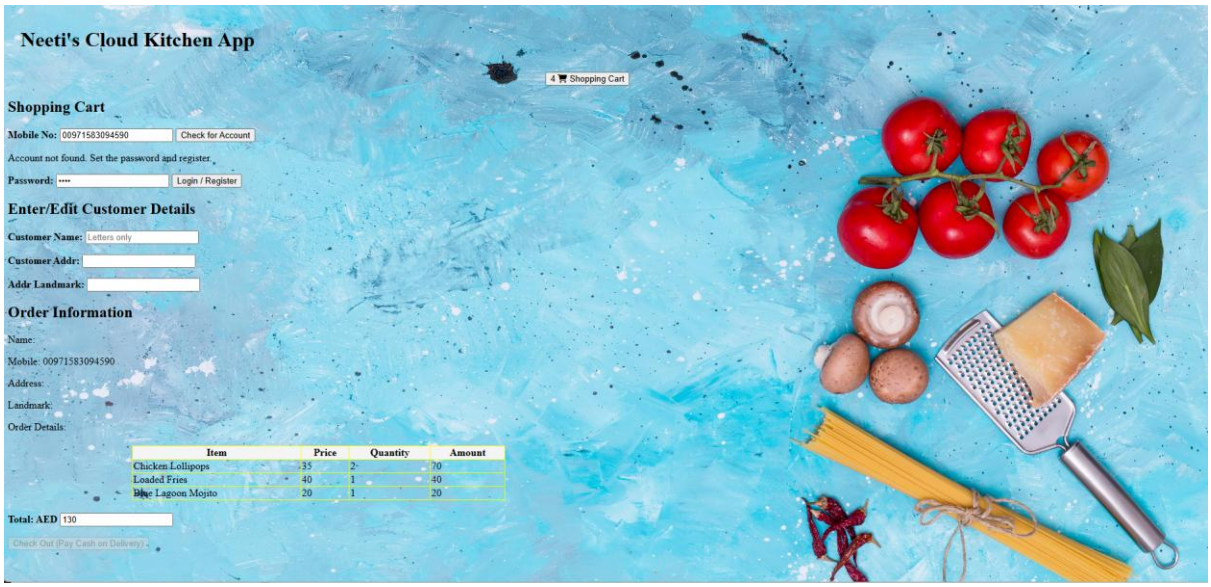


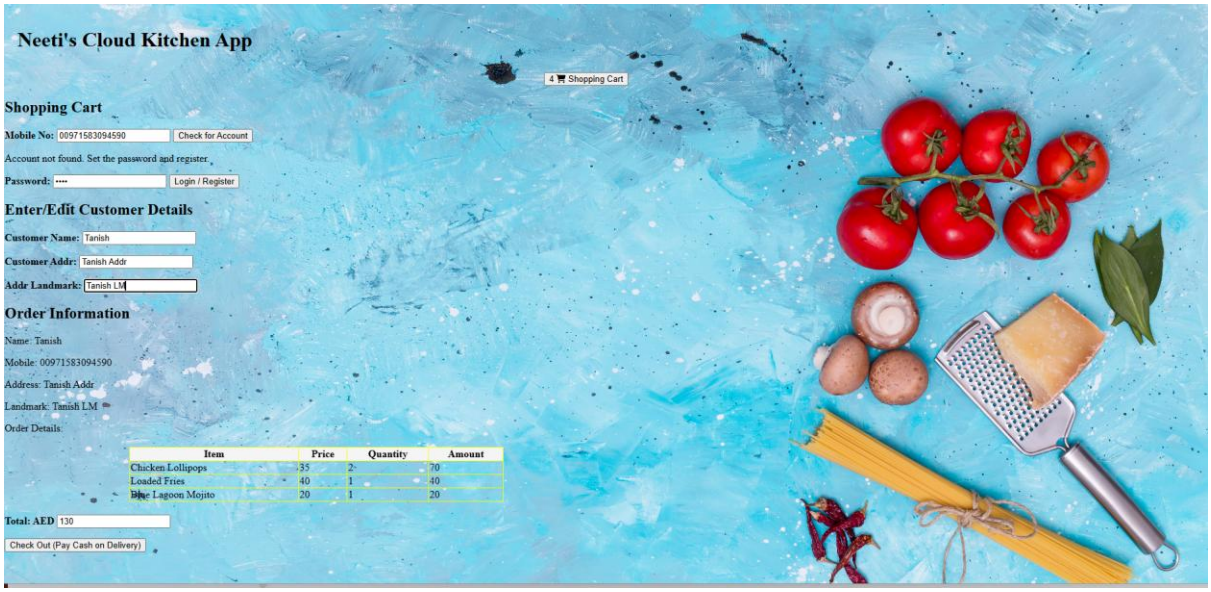


The system displays the items selected, along with the Price, Quantity and calculates the amount.

The bill total is displayed at the bottom.

If account is not available, user is prompted to set a new password and register. Customer can enter the name, address and landmark.





The Check Out is enabled only after all the details are entered.
